Full Stack Web Developer

An intellectually curious web developer with a background in Computer Science. Always curious to solve problems before they happen, I bring creative solutions to complex situations.

SKILLS

Javascript, Ruby, Ruby on Rails, Sinatra, Angular, CLI, Git, Github, Mean stack, React, C++,

Visual Basic, SQL, MongoDB, JSON, jQuery, HTML, CSS, Express, Senatra

RELEVANT EXPERIENCE

Web Development Immersive Student, General Assembly, Washington, D.C.   June 2017

Participated in a thirteen-week full-stack web development immersive course, covering the fundamentals of programming languages, front-and back-end frameworks, and up-and-coming methodologies. Produced independent portfolio of projects including:

- *Tower of Hanoi:* A mathematical puzzle where the objective is to move a stack of discs from one rod to another. Utilizing three rules: only one disk can be moved at a time, every move involves taking the top disk from one of the stacks and placing it on top of another stack, and no disk can be put on top of a smaller disk, the user can win the game
- *Soccer League Full Stack Application:* Utilized an ORM to create a database table structure and interact with stored relational data built in Rails
- *The Match:* Constructed a backend API with two models utilizing SPA with an Angular Front-end and Rails Back-end methodology

Owner, Sun Taxi cab Company plc., Washington, D.C.   May 2008 - present

- Ensured clients arrived safely and timely to their destinations
- Managed 25+ custom routes daily
- Increased revenue to over $55K in the period of one year

Assistant Soccer Coach, Washington, D.C.   March 2016 - present
